

Once-in-a-lifetime opportunity

A VITAL part of education at Asia e University (AeU) is the campus experience, which supports academic achievements and provides diverse opportunities for personal growth.

The realisation of a new AeU campus last year represented an important step in the university's development and a new milestone towards its goal of further improving its premier position among Open and Distance Learning institutions in Asia.

AeU's new campus is more than two times larger than the previous campus, which accommodates AeU's recent growth and helps the university achieve its objective to educate, inspire and empower students.

The new campus comprises an eight-storey building with a spacious built-up of around 86,000sq ft that sits on 30,000sq ft of land.

It is strategically situated in the commercial hub of Subang Jaya with many amenities easily available.

Subang Jaya is the ideal location for this new campus due to its strong positioning as Malaysia's higher education hub and is accessible through major highways, LRT and other forms of public transportation.

The new campus provides a 21st century learning experience, facilitates formal and informal learning and supports the development of a global learning community.

It is fully wireless and equipped with cutting-edge technology to access the world of e-learning and e-resources.

The campus provides students with a comprehensive list of features and facilities to cater to their learning needs and comfort during their years with AeU.

The new space includes numerous well-sized classrooms, a theatre, a learner service centre, offices, conference rooms, video conferencing rooms and meeting rooms to adequately provide services to students, alumni and partners.

Also included is a rooftop warehouse space, which may eventually be converted into a multi-purpose hall for university or student events.

A distinctive feature of the new campus brings together teaching and learning facilities, aiming to enrich students' learning experiences such as:

- Workspaces for students and researchers: knowledge centre, dedicated discussion rooms and individual workspaces
- Social areas: student lounges, recreation studio and cafeteria
- Professionally focused facilities: digital working studio, future learn AR/VR studio, multimedia studio and 3H early childhood education studio

The new AeU campus will be better organised, more coherent and able to cater optimally to more than 5,000 students.

AeU's new campus is located at Wisma Subang Jaya, No.106, Jalan 15/4, 47500, Selangor.

“ AeU's new campus is more than two times larger than the previous campus, which accommodates AeU's recent growth and helps the university achieve its objective to educate, inspire and empower students. ”

MBA microsite at aeu.edu.my/onlinemba
