

# SCHOOL OF FOUNDATION STUDIES

## International Foundation Programme (IFP)

(N-DL/010/3/0528) (11/24) (MQA/PA 12869) - ODL

### PROGRAMME OVERVIEW

The programme offers multidisciplinary courses in Finance, Banking & Insurance with a focus on Asian-centricity. The main aim of the programme is to achieve research excellence by pooling resources and balancing learning opportunities. Graduates of the programme should be able to demonstrate critical understanding of the most advanced knowledge in Finance, Banking and Insurance. They should also be poised for upper level positions whether in organisations, consulting or academia. They are expected to contribute towards improvement in their places of employment and to the nation.

## LEARNING OUTCOMES

By the end of the International Foundation Programme, successful students will be able to:

- describe, discuss and apply key concepts in each specific field of study.
- engage with issues in each field of study and communicate these effectively.
- apply statistical, mathematical and enquiry-based learning techniques to identify and solve problems.
- use digital/technological applications to organise, analyse and process data/information; and
- practise soft skills such as leadership, entrepreneurial and team skills effectively and, apply and manage real-life situations and challenges.
